OUR PRODUCTS

Green Rhino Energy has an extensive range of 2V, 6V and 12V Lead Crystal™ Batteries (CNFJ), suitable for multiple applications, such as UPS, Telecom, renewable energy, railway systems and healthcare.

Green Rhino Energy also offers a vast range of 6V, 8V and 12V high performing light traction batteries (EVFJ) used for electric applications, such as golf carts, wheelchairs, cleaning equipment, electrical pellet trucks and aerial platforms. A high rate battery (HCNFJ) range for UPS is also available.

An overview of the available Lead Crystal™ Batteries is provided below. For help in choosing the right battery for your application, please contact us.

12 V Range
